TYCOON MA450Q

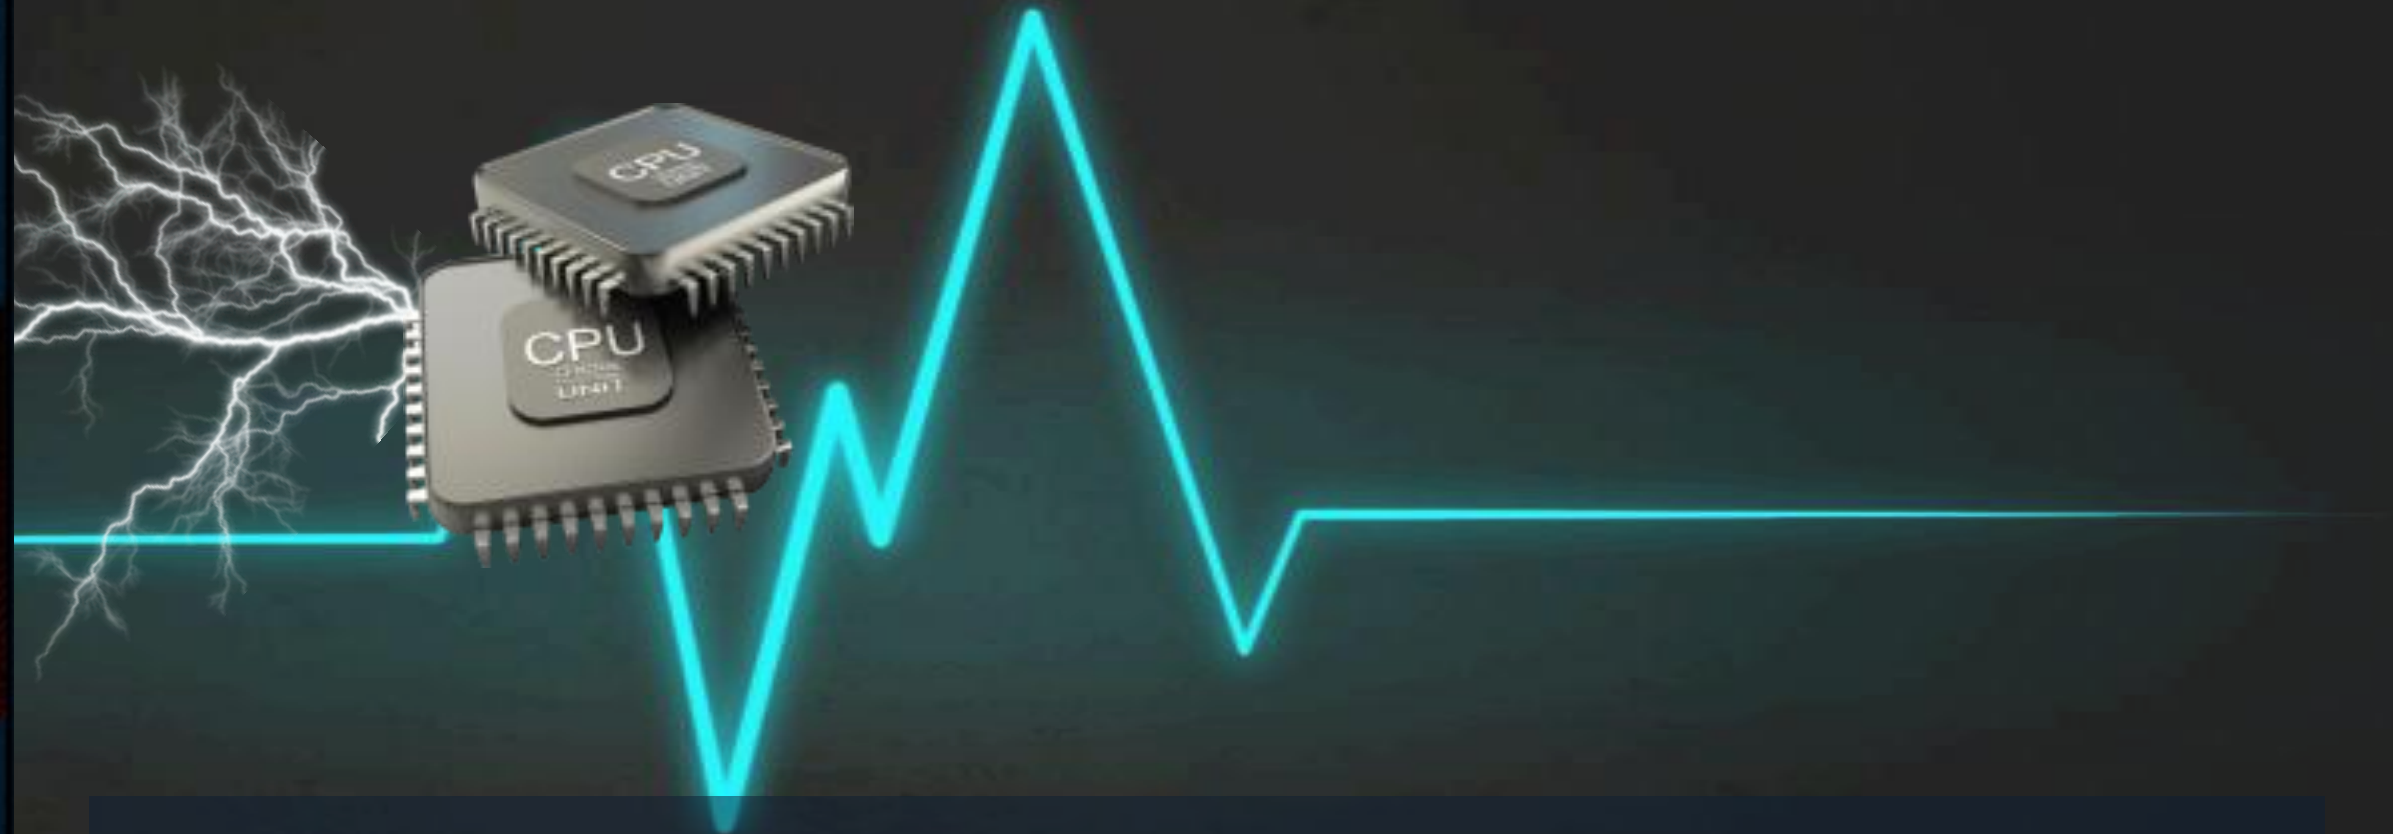

**4.5" FWVGA Display** helps in providing clearer pictures, and a wider viewing screen. It also brings other benefits such as smoother motion, richer and more natural colors on your Smartphone Screen. It makes your viewing experience more pleasurable.

**1.2 Ghz Quad core processor** allows to do multi tasking with several programs at the same time. It increases efficiency, high performance, high speed browsing and can also simultaneously handle multiple threads at a faster rate.

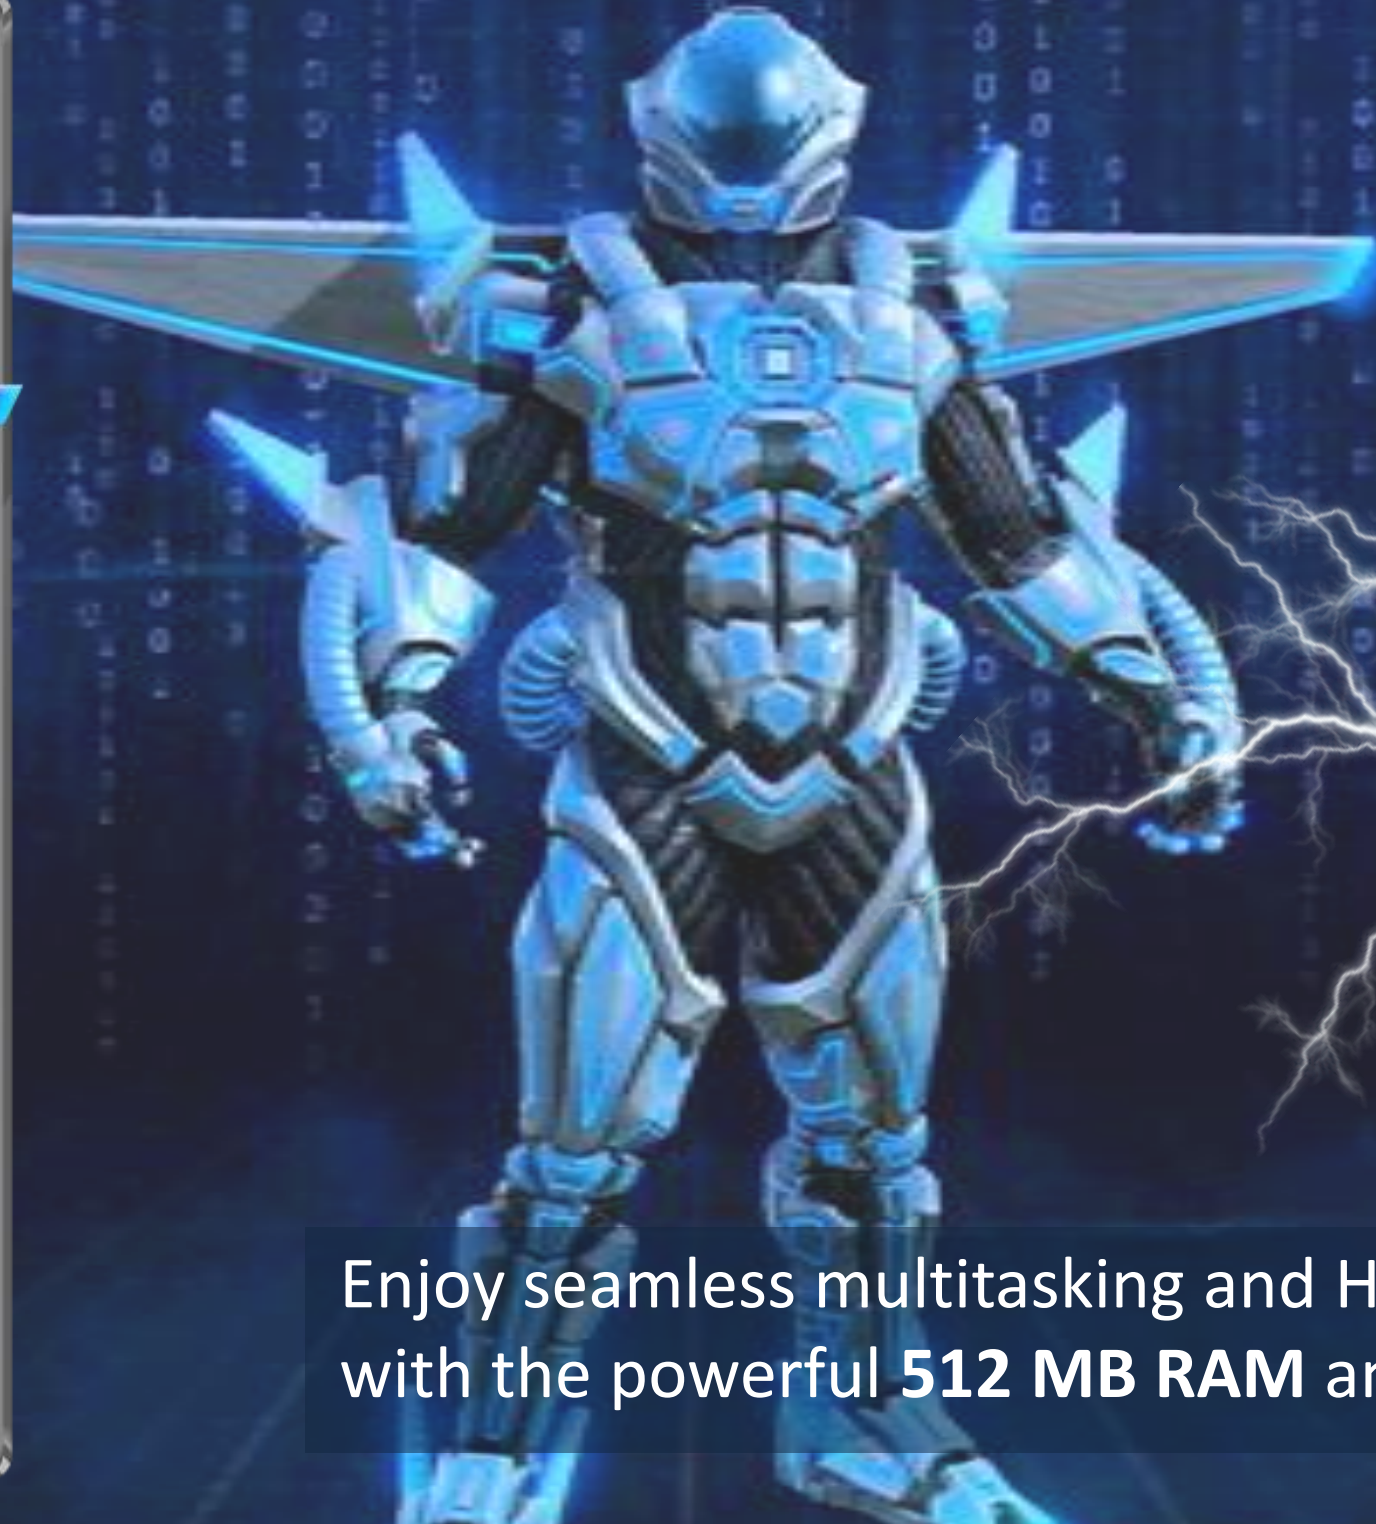

Everything in **KitKat** feels fast, fluid, and smooth. Moving between home screens and switching between apps is effortless, like turning pages in a book. With **KitKat**, the browsing activity also gets enhanced.

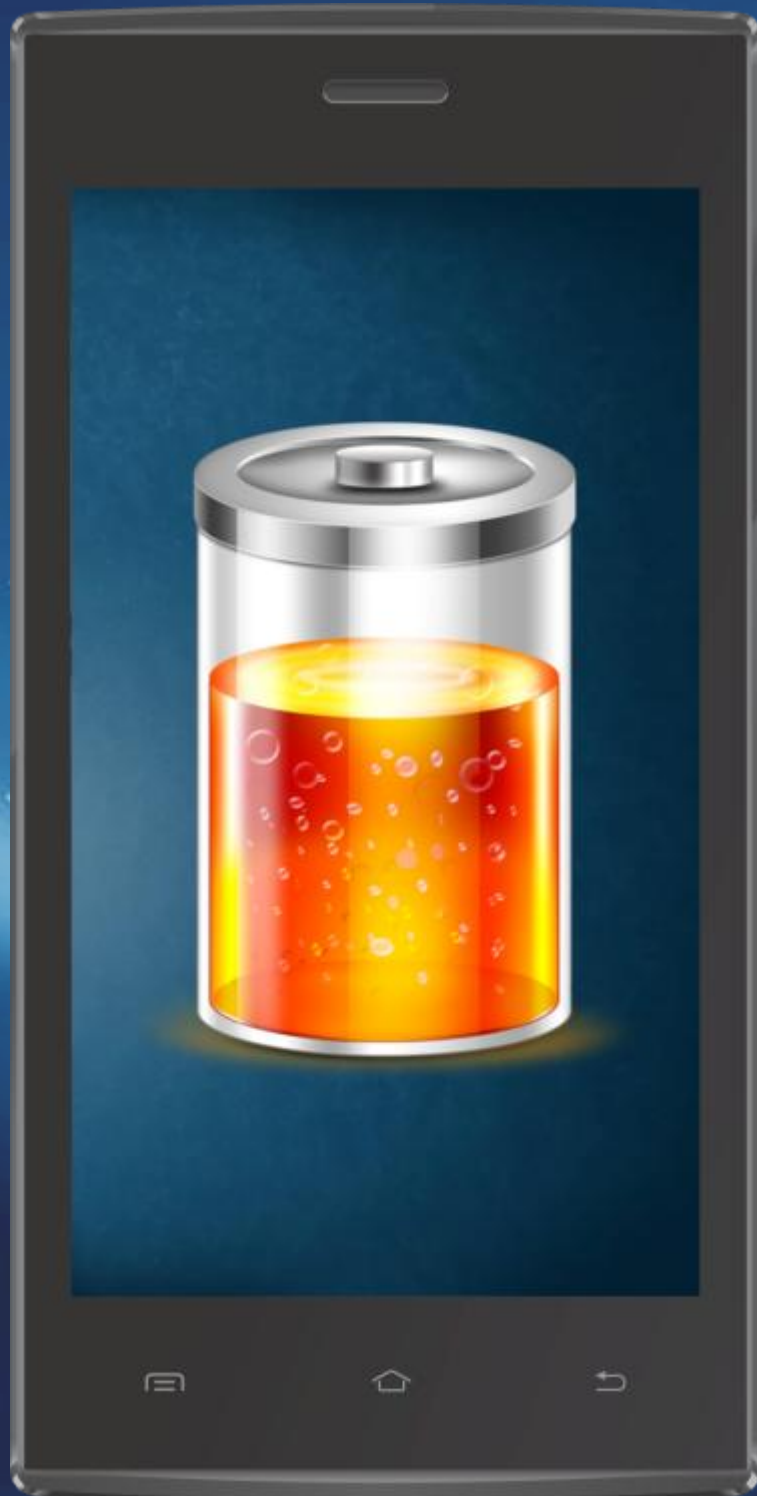

The Smartphone has a **3.2 MP rear camera with LED Flash & 1.2 MP front Camera** which lets you capture fun moments in life. It will help you to click and shoot memories.

Enjoy seamless multitasking and High Resolution Gaming  
with the powerful **512 MB RAM** and **4GB ROM**

**1700 mAh Li-Ion battery** will help you to use your Smartphone for hours. With Longer battery life you will be able to browse internet, play games, listen music and make calls for sufficient amount of time.

The background is a deep blue gradient, darker at the edges and lighter towards the center. It is filled with numerous small, white, out-of-focus stars of varying sizes. At the bottom center, there is a bright, glowing light source that emits several distinct, fan-like rays of light upwards and outwards, creating a sense of depth and illumination. The overall effect is reminiscent of a night sky or a celestial scene.

THANK YOU
